Total Electrical Energy Consumption in GDC Campus in FY 2022-23 is **128387 KWh/Units**(as per electricity bills provided by GDC Administration).

Comparative study of solar units generation and electric units consumption of the college in the year April 2022/ March 2023. The solar unit production of the college is 54737 units and the electrical unit consumption is 128387 units in year 2022/23. We are taking ( 128387-54737=73650 ) units more from Himachal Pradesh State Electricity Board.

These electricity bills are showing significant reduction in paid amount where we have Roof top Solar Energy generation panels.

Subject -  
 Regarding installation of subsurface water pump

Sir,

It is to intimate that a love for water has already been done in college campus in East 100P. There are approx 5500 students studying in this college and more than 200 students are residing in the hostel and facing shortage of water. Therefore your good self is requested to fix the subsurface water pump on here at the earliest.

This college will provide the electricity connection for its own use.

**Day-3**  
**Tuesday, 31<sup>st</sup> Jan 2023**

In the third day of the camp Room Singh started with Exercise and Yoga and games. In the morning session, resource person Junior Environmental Engineer **Om Prakash** gave a lecture on **“Air Pollution, Water Pollution and Solid Waste Management”**. He informed the volunteers about the prevention of pollution. He said that there is a lot of contribution of NSS volunteers in every field of the society. He gave information to the volunteers and said that every person of the society needs to be aware and reducing the sources of pollution is the most effective strategy to prevent pollution.

Activity 1

In the afternoon session **Sumit Thakur**, who was awarded the President's Award, gave information about the NSS volunteers. He said that the only goal of the National Service Scheme is to provide an opportunity for the young students in rendering community service.

## Activity to aware the student about prevention of pollution

Activity 2

**Day-6**  
**Thursday, 3<sup>rd</sup> Feb 2023**

In the morning session resource person **Manjit Singh**, the founder of Karseva Santha Kullu, explained the importance of social services to the volunteers. He said that under the National Service Scheme, the volunteers are helping the needy and playing their role in social work. The afternoon session of this day was cleaning the river on the way to Jhuggi Jhopri, Sarvari Khud, Kullu. The motive of this campaign was to inform our volunteers and people of Kullu about the importance of our rivers in Kullu. The NSS team along with the help of the State Pollution Control Board organised a river cleaning campaign on 3<sup>rd</sup> Feb 2023 and the State Pollution Control Board team explained their ideals, success and plans. Cleaning of the river sides was a hefty process as the place was very dirty, while picking up the waste itself segregation was done into 3 types namely: glass products, plastic and biodegradable waste. 1000 kg of collected waste was given for proper disposal at MRF site of Municipal Council, Kullu. The officials from the State Pollution Control Board thanked the volunteers and encouraged them to participate in future events at SPCB.

**Day-6**

**Thursday, 3<sup>rd</sup> Feb 2023**

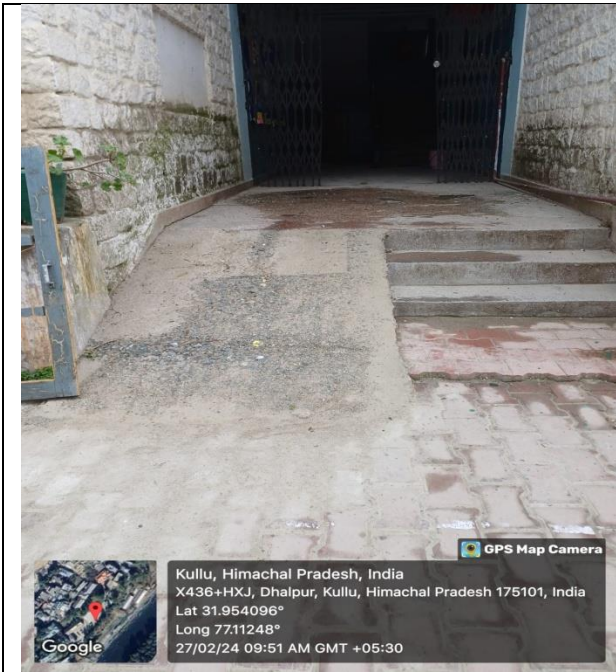

In the morning session resource person **Manjit Singh**, the founder of Karseva Santha Kullu, explained the importance of social services to the volunteers. He said that under the National Service Scheme, the volunteers are helping the needy and playing their role in social work.

The afternoon session of this day was cleaning the river on the way to Jhuggi Jhopri, Sarvari Khud, Kullu. The motive of this campaign was to inform our volunteers and people of Kullu about the importance of our rivers in Kullu. The NSS team along with the help of the State Pollution Control Board organised a river cleaning campaign on 3<sup>rd</sup> Feb 2023 and the State Pollution Control Board team explained their ideals, success and plans. Cleaning of the river sides was a hefty process as the place was very dirty, while picking up the waste itself segregation was done into 3 types namely: glass products, plastic and biodegradable waste. 1000 kg of collected waste was given for proper disposal at MRF site of Municipal Council, Kullu. The officials from the State Pollution Control Board thanked the volunteers and encouraged them to participate in future events at SPCB.
