Sustainable development {सतत विकास }

Development that can be continued indefinitely विकास जो निरंतर हो

टिकाऊ विकास

सतत विकास एक ऐसी प्रक्रिया है जिसमें वर्तमान आवश्यकताओं को पूरा करने के लिए उपलब्ध संसाधनों का उपयोग करते समय इस बात का ध्यान रखा जाता है कि आने वाली पीढ़ी की आवश्यकताओं में भी कटौती न हो

- **Sustainable Development** means making sure that the things we do, the goods we buy and the lifestyle we have **today** will not harm the environment for us, for people in other places and for **future generations**

सतत विकास में सामाजिक एवं आर्थिक विकास के साथ साथ इस बात का ध्यान रखा जाता है कि पर्यावरण भी सुरक्षित रहे

Sustainable development {सतत विकास }

- In 1982, UN established the World Commission on Environment & Development (WCED) headed by Gro Harlem Brundtland, known as Brundtland Commission.
- They published their report 'Our Common Future' in

The Brundtland report, also known as <**Our Common Future**>, gave the most recognized and widely accepted definition of the term <sustainable development> in 1987

Prime minister of Norway

Development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

- WORLD COMMISSION ON ENVIRONMENT AND DEVELOPMENT (BRUNDTLAND COMMISSION)

विकास जो वर्तमान की जरूरतों की पूर्ति इस प्रकार से करें जिससे भविष्य की पीढ़ियों की जरूरतों को पूरा करने की क्षमता पर असर न हो

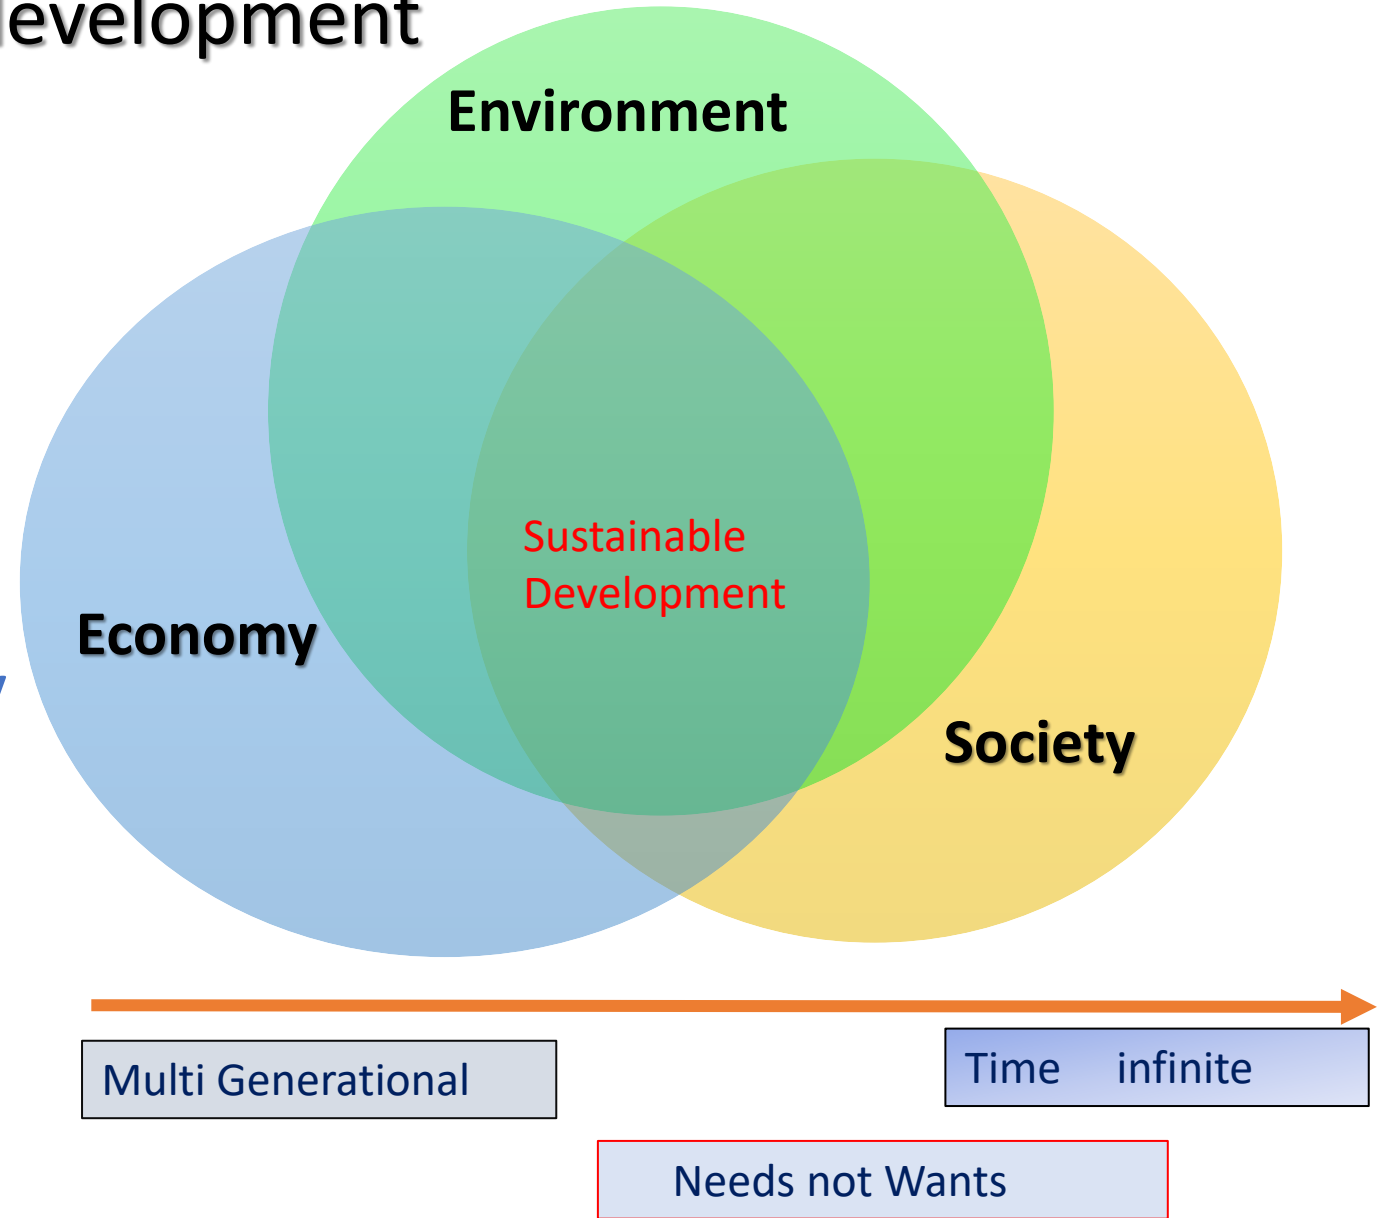

Components of sustainable development :

3 key elements of sustainable development

1. Environment
2. Economy
3. Society

It Is About Establishing
Harmony(balance) Between
The Environment The Economy
& The Community

सतत विकास का प्राथमिक उद्देश्य
हमारी आर्थिक, सामाजिक और
पर्यावरणीय आवश्यकताओं में
स्थिरता लाना है

Three pillars of sustainability(स्थिरता के तीन स्तम्भ)

Economic sustainability /Economic efficiency/आर्थिक स्थिरता

Economic sustainability

Aims to improve the standard of living
Smart growth: equal Opportunities for
Growth, increase GDP optimal use of
resources, creation of employment

Equal access to resources maintaining
high level of economic growth as well
quality of growth

- {विकास जो सब के हित में हो }
- Aims To Improve The Standard Of Living
- Increase GDP
- Equal Opportunities For Growth(विकास में सब की भागीदारी हो
- Optimal Use Of Resources
- Production distribution of renewable energy
- Maintaining High Level Of Economic Growth As Well Quality Of Growth

Social sustainability /Social acceptability सामाजिक स्थिरता/ सतत मानव विकास

Social sustainability :

Participation and inclusion of everyone not leaving any one ,any region any generation behind . promoting equity uplifting social welfare quality of life by improving health and education eradication of poverty food security equitable distribution of resources better life chances and opportunities

- ❑ Participation and inclusion of everyone not leaving any one ,any region any generation behind .(समाज की सभी गतिविधियों उत्पादन ,वितरण लाभ,निर्णय की प्रक्रिया में पूर्ण सहभागिता)
- ❑ Promoting equity सभी सदस्यों, विशेष रूप से सबसे गरीब और सबसे कमजोर सदस्यों के लिए समान अवसर और परिणाम प्रदान करना
- ❑ Uplifting social welfare & quality of life by improving health and education **जीवन की गुणवत्ता को बढ़ाना** - बुनियादी जरूरतों (जैसे स्वास्थ्य, आवास, शिक्षा)

Freedom from all evils(poverty ,hunger,inequality ,)

- Equitable distribution of resources

Environmental sustainability

Environmental sustainability

conservation of environment and natural resources for present and future generation

Improving Air quality, Water quality

Soil quality better management of waste and pollution

respect and protection for all species –flora fauna marine species conservation of environment and natural resources for present and future generation

Of the three pillars, the most important is environmental sustainability

According to the United Nations (UN) World Commission on Environment and Development, environmental sustainability is about acting in a way that ensures future generations have the natural resources available to live an equal, if not better, way of life as current generations.

etc. If we don't take care of the Environment in which we live now, we won't have anything to leave behind us for future generations.

Sustainable development {सतत विकास }

**What needs to be
sustained**

क्या बनाए रखने की
जरूरत है

- People and cultures
- Natural Resources
- Biodiversity
- Environment and
Ecosystems

Sustainable development {सतत विकास }

What needs to be developed.

क्या विकसित करने की जरूरत है

- Quality of life
- Justice and social equality
- Equal opportunity
- Institutions
- Culture of sustainability
- Fair income

When all three pillars are strong. There will be clean healthy **environment**, a satisfactory level of **economic** well-being, and a robust level of **social** fulfillment **Development which is economically viable environmentally sound and socially responsible**

“We do not inherit this earth from our parents.....we borrow it from our children”
(African proverb)
